

# CARE-FLARE®

## Signal Light Operating Instructions

The signal light is used to temporarily mark areas that require special caution. Care-Flare warns uninvolved bystanders.

The signal lamp can be operated indoors or outdoors.

Read the operating instructions carefully and observe the safety instructions in particular! Always include the operating instructions when you pass the product on to third party.

Before the first operation 4 batteries, type C, must be inserted. It is essential to observe the polarity when inserting the batteries!

### Type designations

Item number: CF-0002

### Distinctive feature LED colour variants

| LED Colours | Red + White   | Orange + White  | Blue + White  |
|-------------|---|---|---|
| Key colour  |  |  |  |

### Safety Instructions

- Signal LED light!  
Do not look directly into the LED light source!
- When setting up the signal light and during operation, make sure that nobody is endangered (road traffic etc.)!
- This product is not a toy. Keep away from children and animals.
- The product must not be immersed in liquid.
- Do not use the product if it shows visible damage or if it no longer functions properly.
- Only use batteries that are not damaged externally.
- The product may not be modified or converted.

### Accessories

|                                   |                 |
|-----------------------------------|-----------------|
| Protective bag for 3 signal lamps | Item no.: 10652 |
| Protective bag for 6 signal lamps | Item no.: 10653 |

### Technical Data

|                             |                        |
|-----------------------------|------------------------|
| Dimension (L x Ø)           | 39 x 4.5 cm            |
| Mounting height (from base) | 28.5 cm                |
| Weight (without batteries)  | 495 g                  |
| Protection class (EN 60529) | IP 67                  |
| Operating temperature       | -40 ... +40 °C         |
| Light duration (flashing)   | >70 h                  |
| Type of battery             | Alkaline*              |
| Battery size                | C / LR14 / Baby / AM-2 |
| Number of batteries         | 4 pieces               |
| Battery voltage             | 1.5 V                  |

\* The use of rechargeable batteries is possible and reduces the light duration

### Maintenance / Cleaning

The product is maintenance-free. The integrated LED light sources are permanently installed and cannot be replaced.

Only wipe the product externally with a clean, soft, dry cloth.

Never use aggressive cleaning agents!

The product may only be repaired by an authorized dealer or the manufacturer.

Spare parts are available from your dealer or the manufacturer.

### Disposal

Electronic devices and the batteries they contain are recyclable materials and do not belong in household waste. Dispose of the product at the end of its service life in accordance with the applicable legal regulations via a specialist disposal company!

### Notes

### Attestation of Conformity

No. E8A 110818 0001 Rev. 00

**Holder of Certificate:** Vogt-CTE GmbH  
Traubenweg 42  
3612 Steffisburg  
SWITZERLAND

**Name of Object:** Signal light  
LED signal light

**Model(s):** CF-0002

**Description of Object:** Rated Voltage: DC 6V  
Rated Power: 4.5W

**Tested according to:** EN 55015:2013/A1:2015  
EN 61547:2009

This Attestation of Conformity is issued on a voluntary basis according to the Directive 2014/30/EU relating to electromagnetic compatibility. It confirms that the listed apparatus complies with all essential requirements of the directive and is based on the technical specifications applicable at the time of issuance. It refers only to the particular sample submitted for testing and certification. For details see: [www.tuvsud.com/ps-cert](http://www.tuvsud.com/ps-cert)

**Test report no.:** 878882018601-00

**Date,** 2020-12-10

## Use

### Storage

### Open / Close

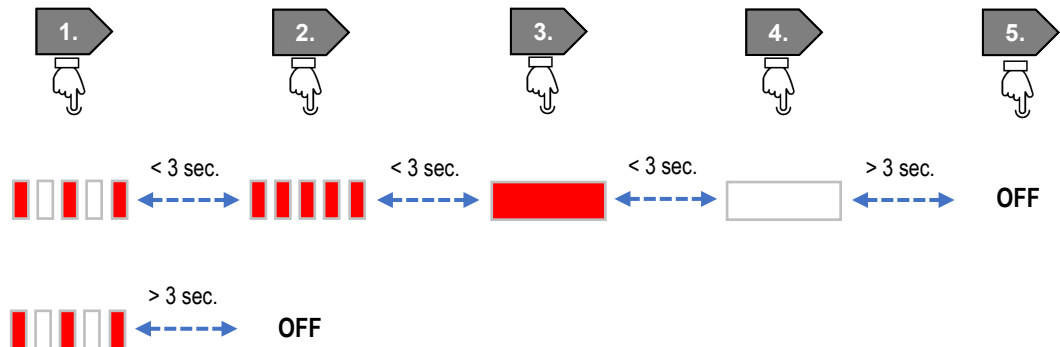

### Position in use

Place on flat, firm surface

## Lighting pattern

Batteries discharged

White LED

Coloured LED. Depending on colour variant: red, orange, blue

## Replace batteries

1  
Unscrew  
battery cover

2  
Insert 4 batteries  
type C / alkaline\*

Please note polarity (+/-)!

3  
Screw down  
battery cover
